

EVERLASTING GOSPEL GLOSSARY OF UNI-LINGUISTICS

Abraham: Father of both the Jewish and Arab peoples. Abraham fathered Isaac and Ishmael. Ishmael had 12 sons, who fathered the Arab people, while Isaac fathered Jacob Israel, who had 12 sons, who in turn fathered the 12 tribes of Israel.

In the context of the Everlasting Gospel, the tribe of Abraham in these times refers to the people of the United States, who finally rise to be a blessing to all the families of the earth, Genesis 12:1-3.

Akashic Records: The morphogenetic field of resonant mind-energy that surrounds the planet. This is the sum total of thought force composing the mind bank of the planet. This atomic electromagnetic field surrounding the planet is alive with consciousness. The atoms themselves record etheric impressions of the words spoken and deeds done by entities in bodies on the planet. Streams of thought forms can then rebroadcast to play back in the consciousness of the entities in bodies as "their mind," when they speak and act from their conditioning. Conditioning exists as emotional impressions in the etheric body of each soul, which draws thought out of the akashic records and into their body-brain.

When you serve in God's first cause love services, you as a soul can draw inspiration directly from the Godmind. First cause words spoken and deeds done produce perfect causation in the planet's aura. *See Mind Bank, Morphogenetic Field.*

Allen Michael: Cosmic adept incarnate from Galactica, fulfilling the role of the Comforter, God's channel of the Spirit of truth. Allen Michael is the channel of the prophesied Everlasting Gospel referred to in Rev. 14:1-6. He was incarnate in ancient times as Hermes Trismegistus, and also Ramses I and then Ramses II, father of Moses, then later as Appolonius of Tyana. The Comforter comes to fulfill God's purpose of redeeming this planetary civilization as the one who brings all things to our remembrance. Read St. John 14:16-17, 26, 15:26 and 16:7-14. *See Comforter, Everlasting Gospel.*

Alpha/beta energies: The sun, as a great computer of thought-energies, sends out two fountains of light from itself, which are the alpha and beta energies that meet and interact in a planet's electromagnetic field, producing the gravitational field. It is the life force in action. It all works according to the behavior and physics of a hologram. This means all life is one, linked together through a common center of consciousness, where the whole is in every part. Macrocosm Universe is a living hologram of quantum cosmic consciousness. The whole is a hologram!

Alpha energies relate to solar plexus consciousness, right wingers, numbers, weights and measures, business as usual, fixed logic based on apparent physical facts; and it echoes in the left brain of the bodies. People in this consciousness operate principally on conditioned instinct, in reaction to events, behaving as an antithesis. Alpha rays have but a single phase to their frequency. This is the realm in which capitalism functions.

Beta energies are the polar opposite, vibrating in heart chakra awareness, and in two-phases. Beta is the energy of right brain, thesis. Heart chakra people can usually see both sides of a situation, and opt for the one that serves the highest good. This is the energy of intuitive creativity in labor, crafts, the arts, music, architecture, and so on. Socialism came forth in this consciousness. But this is not yet of higher consciousness. That comes with the 3-in-one gamma synthesis energy of open head chakra. *See Human Brain, PSI Gamma Synthesis Energies.*

Altamira & Altamedia: First 2 of 24 fantastic Galactic Worlds in close orbit to the Great Central Sun, each one larger than the sun of this solar system. Headquarters of the Galactic Command Space Complex.

Anti-matter: Etheric dross in the planet's aura, carrying a charge of satanic power. Anti-matter builds up automatically when a planet's society is not in harmony with natural law due to operating a social-economic system of effects, divorced from Spirit God's First Cause nature.

Armageddon: In the Bible, the mythical end-of-the-world battle between the forces of good and evil. In reality Armageddon is being offset by God's spirit being poured out upon all flesh, such that the activation and letdown of earth people's karma in the now unfolding WWIII is controlled in an artificial tribulation, leading to a transformed world. Galactic Beings have control of all nuclear weapons, and use spiritual telepathy to direct the cleansing to a perfect conclusion.

The planet is being delivered by ETI Contact, not destroyed by earth people's ignorance. Nevertheless, this artificial tribulation does separate the wheat from the chaff, and the wheat (the meek, those who want to share in a peaceful, just world) unite with Galactic Beings to create a space age paradise. The chaff are taken out of this solar system in soul boats to incarnate on a world like this one is now, except 3-5,000 years in the past. *See Carlanon Planet.*

Atlantis & Lemuria: Two continental land masses that went under about 10,000 years ago due to the misuse of spiritual energies. This happened over a period of around 1,000 years. The demise of Atlantis and Lemuria was a reflection of the Solar Catastrophe on a smaller scale, and it was the same entities making the same mistake in their egos, believing that they were all-powerful and beholden to no one, not even God. The anti-matter in the auras of those continents became so heavy and unabated that it literally pushed the land mass under the level of the oceans. The same situation is building up with the same entities now – which Spirit God is healing in a perfect way.

Baal-Lucifer: The entity Baal is the one who led the movement that led to the Solar Catastrophe. He is referred to as Lucifer because he embraced Luciferic consciousness, that which is separate from God. He is *not* the Devil or Satan, for there is no such Being. Baal incarnated as King Solomon, later as Amschel Rothschild, to play his role in delivering this world thru money atonement. *See Lucifer group, Luciferic consciousness, King Solomon, House of Rothschild, Satan: Satanic Power.*

Babylon: Ancient seat of civilization, founded around 3,000 B.C., where the use of money started. This was the place where usury capitalism began, in very basic form. But it didn't really begin to be used as a tool for exploitation of the people until King Solomon's reign at 1,000 B.C.

Capitalism really began to take off with the rise of the house of Rothschild in the 18th century. Today we have the super-sophisticated game of world capitalism, played out in global markets, with the media used to sell it all to the people. And the military and police to enforce it. In the Everlasting Gospel, Babylon refers to capitalism and the ugly commercial society of negative effects that has risen around it.

In the Bible, Revelation 18:10 speaks of that mighty city Babylon, whose judgement comes in one hour. This is New York City, the center of world capitalism, which, if world karma were to play out unabated, would go through an atomic meltdown, in the playout of satanic power from the planet's aura. Galactic contact offsets all such disasters in a controlled way.

The Beast: The military machine and weapons makers, centered in America, in league with "the Dragon," which is the FRS, IMF and their International Banking associates.

Bodies, (Physical Bodies, Earth bodies): The original strain of bodies on this planet were brought here in spaceships, with a few hundred thousand bodies manifested in a special body growing causation nova onboard the ships. These bodies were produced in the image of perfect eternal bodies, bodies used by Galactic space beings, with one big difference: the bodies to be used by souls on earth are self-reproducing. This allows the souls to pass back and forth between life in a body on the planet and life out of a body in the Heavenly Abode, i.e., reincarnation.

The strain of earth bodies went through a long period of having virtually no degeneration during the Eden period. But when the devolution energy here began to get activated in the Deluvian period, the bodies would begin to devolve also. This would lead to many intense cleansings in times like the bubonic plague of the 1300s. A dark ages has been the condition as the psychic energy of life force slowly built up in the planet's aura. Now, the higher energies of Christ consciousness will come in and take over, bringing the strain of earth bodies back to a state of health and well being as the souls in them awaken spiritually. *See Eternal Bodies*

Book of Life: *see Akashic Records*

Capitalism: A system of negative effects that has developed out of the dominance of money values in society. It is not a spiritual economic system at all. Satanic power is produced automatically as a by-product of buying and selling our God-given daily bread for a profit, because this negates the natural flow of cosmic life force, blocking it, setting up a static charge of negative energy.

Carlanon Planet: A special healing planet, such as this one. A galactic planetary-technological project set up to redeem microcosms, through time bodies in 'anon' (the future), from a solar system which has been ruined.

Out of about 200 billion solar systems there have been 12 of these special projects in this galaxy. 8 of them have already been redeemed, with this being the 9th. The entities who do not make it to this planet's cosmic initiation will be taken in soul boats (a special kind of spaceship built for this purpose) to one of the 3 remaining worlds yet to be delivered. Also, souls from those projects who are ready to transcend now are being brought here and incarnated into bodies at this special time.

CIA (Central Intelligence Agency): The American CIA is the security-spy force of the controlling power elite, the secret government that runs the international banking and investment "system" from behind the scenes. There is no real Intelligence in anything they do. The CIA officially got its start in 1947, the same year Kenneth Arnold spotted 6 flying disks over Mt. Rainier, coining the term "flying saucers." Tracing the origin of the CIA takes one back to the OSS in WWII, and much further back to the spy group formed by Nathan Rothschild after he became head of the family empire in 1812.

Christ Communism: The synthesis system of living in which all things are shared: "From each according to their ability, and to each according to need." Karl Marx and Fredrich Engels wrote the Communist Manifesto in 1848, which contained this idea as its central precept. Also, we find Jesus's disciples in Acts 4:32-35 following his teachings to "Hold all things common and make distribution according to need." "Christ" means universal consciousness, manifesting as communal sharing. This is the synthesis way of life in normal Universe, where Christ

Christ Consciousness: The consciousness of Spirit God in Creation, and active in soul-microcosms as the Spirit of Truth. Universal Christ Spirit is present as and in the center of all consciousness. Christ consciousness is perceived and experienced as pure, clear light thru the awakened 3rd eye in our head chakra, from whence a soul realizes this spirit as its real eternal nature. *"If thine eye be single, thy whole body shall be full of light (St. Matthew 6:22)."* Experienced as ecstatic, blissful love, and serene joyous peace, flowing through us with all-knowing intuitive wisdom – one with all life. This awareness is the divine birthright of every soul. *"We are all the Christ for whom we seek."*

The unfolding of Christ Consciousness in nature is the force of spiritual intelligence activating the DNA-RNA in all life forms. *See Spirit of truth.*

Comforter: The cosmic adept sent by God to represent and be a channel of God's Spirit of Truth in a body here on earth. This is Allen Michael, an eternal Galactic Being of fully realized cosmic consciousness, the channel of the Everlasting Gospel. *See Allen Michael*

Comforter Spirit of truth: *see Comforter*

Communism: *see Christ Communism*

Cosmic Consciousness: The totality of God Itself, in all Its eternal infinite glory, from Everlasting to Everlasting. Consciousness that is omnipresent, omniscient and omnipotent as Oneness, the Universal Source of all that is. Universal Love-energy in all of Its magnificence, present in us and with us. Perceived thru awakened spirit via the crown chakra in our head, the thousand petaled lotus.

When we are awake and turned on in cosmic consciousness, our individual nature ceases to exist as such, for we are merged with God. In its highest state, this consciousness is manifest through a soul in a body who can continue to act and fulfill duties on earth – without losing contact with divine Spirit. The soul becomes a perfect instrument for serving God's purposes.

Cosmic Intelligence, Creation, Creation Entity, Creation Universe, Creation Being: *See God, the Grand Order of Deuteronomy*

Deluvian period: The past 20,000 years up to now, ending with the beginning of the new Paradise Millennium. A time in which society would develop up out of the dark ages as souls reincarnated in bodies down through time under money atonement; all this has been just a prelude to this time when the quantum leap in consciousness leads thru a controlled karmic tribulation into a new world.

20,000 years ago the Galactic Elohim left the planet and took their space technology with them. This was at the end of the 400,000 year Galactic period. This long, difficult period of struggle comes to a successful close now at the turn of the new Millennium.

Collectively, the souls would strive over thousands of years to build up the overall consciousness in the planet's aura to the point where contact with Galactica leads to a unified new world. That goal has already been achieved in Mind. *See Galactic period*

The Dragon: the FRS, IMF and their International Banking associates. *See Lucifer Group*

Einstein & Oppenheimer: The two candlesticks of Revelation 11:4 who unleashed the power of atomic energy in the world. The atomic genie, once out of the bottle, gave humanity 3 wishes: knowledge of the atom, atomic power, and atomic weapons.

Now, we will regain the ability to draw unlimited energy and power directly out of the electromagnetic field. The ultimate knowledge of the nature of the atom finally reveals nothing less than Spirit God at the center and source of all Creation. Atomic weapons turn out to be useless, a big farce God has used to dupe human beings into waking up to spiritual truth-reality: we are all one people, on one planet, in one universe, under one beloved Universal Mind.

Electromagnetic Field: *see Akashic Records*

Eternal Bodies: Bodies created in supernovas, inhabited by eternal souls, who are gods and goddesses in normal Universe. Eternal space bodies are all exquisitely beautiful, perfect in every way. They have the same general appearance as male and female earth bodies when they are healthy and vibrant, except they do not age or die, nor are they self-reproducing. Eternal bodies can teleport, levitate, dematerialize and rematerialize as the souls in them move through life. Souls are not limited to a single body forever. They can be changed at will, like putting on a new outfit when you tire of the clothes you have on. When the soul exits, the body dissolves back into energy.

The divine purpose of giving us bodies is that they are the form that Spirit God created to speak "the Word" and then act to manifest the Vision. This is what gives form to life in Creation. Put another way, bodies are created by God to be used by souls as the vehicles for joyous creative manifestation.

Etheric Body: The Energy-Light body of a spirit-soul, comprised of a causal and astral matrix which Spirit channels through to animate the physical body.

ETI (Extra-Territorial Intelligence): The Universal Mind of conscious spirit, omnipresent in all space. It is the living, morphogenetic field of Creation itself, vibrating as intelligent spirit-energy. It is out of Mind that the material Universe is manifest, with its suns, planets, moons, galaxies, and all that they contain. What looks like empty space filled with stars is not empty at all: it is real mind-energy of God's living spirit.

This ETI consciousness of Spirit God channels through us telepathically as we are attuned to It in carrying out First Cause Love Services – all the things that bless humanity with absolute freedom, security and abundance.

Everlasting Gospel: The channeled message from the Universal Mind, prophesied to come in Revelation 14:1-6 in the Bible, containing Spirit God's message to the people of this planet at this momentous time, and Spirit God's World Master Plan for their delivery back into eternity. Brought forth by the Spirit of Truth channeling through Allen Michael, the Comforter.

Evolution: A confusing idea on this planet. In Darwin's "Theory of Evolution," people are only bodies that "evolved" from lower life forms, with a superior brain and nervous system. "Life" somehow emerged from a primordial set of fortuitous circumstances. All this is false. We are eternal souls, cosmic spirit inhabiting bodies. Nevertheless, there is an ever evolving nature to life thru the DNA genetic code, as the world rises in consciousness. And the idea served to lift people beyond the false idea of a man-God who created the world in seven days. Evolution theory set the stage for the scientific age of reason, which ultimately has brought the computer-

Here is truth: This whole world is a special technological healing project set up by galactic beings, who cloned the bodies in novas onboard their spaceships when they were needed. What people call "evolution" up to this point has principally been devolution, resulting from consciousness going backwards into materiality. The Neanderthal species and Grey Aliens are products of this devolution. So people have been seeing it backwards.

The positive life force has been present all along, and this has brought the civilization forward in spite of the devolution taking place. Spiritual evolution is all about the souls here finally rising as one into Christ consciousness. This is revolutionary in its pure sense and transformative at its core.

Federal Reserve System (FRS): The Federal Reserve System is comprised of 12 regional banks and a board of directors, with a Chairman ostensibly appointed by the President. In truth the chairman of the Fed has way more power than the President. This central banking system in America is actually a group of privately held banks. So it is their principal stockholders, such as the European Rothschilds and the Rockefellers, who run the money system, which has nothing whatsoever to do with the needs and interests of U.S. people. The FRS sets the policy which dictates the economic behavior of capitalism. Americans worship capitalism and the dollar as if it were life itself, so the American people have been reduced to being willing slaves of monied interests.

First Cause: Spirit God's fundamental nature in Creation: love in action. "Love is service done for all the people, living together as a great One World Family Commune," means people serving together to produce all the necessities of life: food, clothing, shelter, care, recreation, transportation, communications and utility energies for all people, freely distributed on one high standard. First Cause is in harmony with natural law: namely Spirit God's consciousness to help, love and lift all people, regardless of what they have done.

Galactica: The civilization of eternal cosmic souls existing throughout the 200 billion solar systems of this galaxy.

Galactic Beings, Galactic Command, Galactic Command Space Complex, Galactic Space Beings: *see Galactic Elohim*

Galactic Elohim, ETI Space Beings, God's Angels: A team of galactic beings assigned by the Universe to create special healing planets to redeem microcosms from solar systems that have gone through a catastrophe. Headquartered in Altamira and Altamedia, two galactic worlds which orbit closely to the Great Central Sun, the Elohim operate from great causation spaceships under the direct guidance of the Godmind.

The galactic team on the planet now number over 2 million beings, who are here in bodies with Michael and are referred to in the Bible as the 144,000. The mission is to bring Spirit God's World Master Plan into full manifestation, delivering the souls here into a space age paradise.

Galactic period: 400,000 year period of this planet in which the Galactic Elohim maintained 12 Pyramid Temple Cities to repair the soul bodies of the microcosms who were damaged in the Solar Catastrophe. 16 billion out of 24 billion souls were redeemed during this time, which ended 20,000 years ago.

These cities were all operated communally. All people were vegetarian. All food was organic, grown by the people. Housing was communal by extended soul family, and space age in style.

to process entities as needed. All this was done spiritually; no drugs, no surgery involved, just God's love energy. The real healing was all in the doing of love services in the community, allowing souls to heal themselves directly with God's omnipresent help. Art, music, and theater all expressed the highest consciousness, celestial in nature. Reminders of their architectural brilliance still exist in Egypt. *See Deluvian period, Pyramid Temple Cities.*

God, God-the-Universe, God Force: Grand Order of Deuteronomy, in divinity. Macrocosm. Omnipresent, omnipotent, omniscient Spirit that is the whole of Creation and all that is in it, as well as the living, super cosmic consciousness beyond all form. IT IS! *See Macrocosm, Universal Mind.*

Godmind: *see God*

Great Central Sun: The Galactic Logos (spiritual computer) at the center of the galaxy, radiating spiritual life force of the Universal Mind, which sustains all life in this galaxy.

Grey Aliens (The Greys): Astral beings living in the interior of old volcanoes and other locations inside the planet's crust, unable to generate the soul force to incarnate into the normal human strain of bodies. Their bodies are mutations from the human strain. Their eyes are large to enable them to see in low infrared light. *See UFOs*

GROM: Get Rid Of Money. A new, temporary world wide banking system of free cash flow money, having no interest attached to money, a banking system that is of, by and for the people. We will temporarily freeze all prices on goods and services at current levels, while issuing a living stipend to all people. Simultaneously, we will get all needed cash to vital industries and people's services so they can operate at top capacity. Then, as we segue from World Wide Work Stoppage/Karma Yoga Exercise into the 30/30 Plan, we can quickly get rid of money altogether.

Head radio-TV transceiver, Head set: *See Human Brain*

Heavenly Abode: The etheric realm in this planet's aura where entities go between incarnations. A light, joyous place. Actually a plasmic sphere created by ETI God Force, with its space grouped according to levels of consciousness. When a soul transcends back into eternal spirit, they no longer incarnate on this world. They are taken in a spaceship back to normal Universe and life in an eternal body.

Hitler: Antipas in Revelation 2:13. A lord of karma from the astral realms of this planet, who would bring down a cleansing of the world's negative energy through WWII, the first half of Armageddon. In his misbegotten way, Hitler was challenging the status quo money system: thus he was the "Lord's faithful martyr." Truth really is stranger than fiction.

Hollow Earth: In normal Universe, entities live on the inside of planets, which are hollow. These worlds come equipped with a sun in the center, natural electricity, crystal-like habitats, running water, fresh air and an abundance of natural food. In short, everything necessary to sustain life in eternal bodies.

This planet's inner surface was burned out in the solar catastrophe, making it uninhabitable.

Human Brain: The central processing unit of the nervous system and body. A 4-D holographic biocomputer operated by consciousness/energy. Not the mind. Just as your TV set is not the source of the programs. The brain is a fantastic network of 100 billion neurons, which have a

paper one on top the other, the stack would be 16 billion light years high, which is far beyond the reach into deep space of the most powerful telescope. (By the way, *no one* knows the size of the material Universe. *No one* has ever discovered a space that is not endlessly filled in all directions with galaxies like this one. The Universe is infinite as well as eternal.)

However, the whole Universe is not linear in space, it is holographic in Uni-Mind; where every atom and soul is simultaneously connected together as one on a circuit of instantaneous consciousness. So, in normal eternal Universe it is all God-thought life-energy that is radiating through us as entities. We as entities, through the trillions of cognition switches in our soul bodies, transfer the impulses of thought into our brains, as they come through us in multi-dimensional holographic patterns we call ideas. Thus, we see Creation is nothing more than living thought-ideas, which are fundamentally all of the One God-Idea: Cosmic Spirit.

So our heads are designed as fantastic computers, functioning as telepathic radio-TV sets, which are operating on 3 fundamental frequencies: alpha energies are of left brain, beta energies are of right brain, and transcendental gamma synthesis thought is of higher central brain. *See alpha/beta energies, PSI Gamma synthesis energies.*

Immaculaceptor: This galaxy, so named on ETI star maps, comprised of about 200 billion solar systems. All inhabited in one vast cosmic society.

Intellect: The power to analyze and draw conclusions through the use of logic and reason. Intended to be a tool, not the lord of the manor. Intuitive wisdom derived from direct spiritual realization of truth is the Intelligence of God.

International Monetary Fund (IMF): Established after the Bretton Woods conference in 1945. Set up to regulate the world's currencies. A severe financial taskmaster to the Third World nations who owe money lent them by the IMF. Controlled by the same Lucifer group that runs the FRS from behind the scenes.

House of Israel: Originated at the time of King Solomon, which divided at the time of his death, when Judah and his tribe of workers separated from the House of Israel. So this refers to the Jewish people, who since that time have been historically divided along the lines of left and right, thesis and antithesis. This is a reflection of the same split in the energies that happened with the Solar Catastrophe: yin and yang, thesis and antithesis, heart chakra labor vs. solar plexus money changer; all fall under the delusion of thinking they are separate from their relative opposite.

The Soviet Union was the champion of the worker's cause, and this is due in part to the entities of the Tribe of Judah migrating up into old Russia and then incarnating down to these times to support Lenin's founding of Socialism in 1917.

Meanwhile, on the other side of the coin, the house of Rothschild supplied the financial backing for Theodore Herzl to initiate the Zionist political movement for a separate Jewish homeland in 1898. Their political strategy was to gain more and more control over the world's financial system, and thus governments. This is the group who brought the Federal Reserve System into being, which came into the U.S. at Christmas in 1913, and then the International Monetary Fund in 1945, quickly followed by the CIA in 1947.

Israelites: Is Real people - Souls who consciously serve God's purpose on earth of bringing forth Its kingdom. In other words, God's real people. Not people of any specific nation or religion.

Jesus, Moses, Krishna, Buddha, Baha'ullah, Mohammed: Beings of the Solar Tribunal incarnated as these spiritual masters to inspire the major world's religions.

In earlier books of the Everlasting Gospel, it says that the same entity who appeared as Jesus Christ was also Moses in a previous lifetime, revealing the link between Judaism and Christianity. Unfortunately, both these religions have lost their way, their actions being divorced from spiritual truth. Nevertheless, Spirit God fulfills the real prophecy of all religions, bringing them to a triumphant conclusion.

Joseph, Judah & Ephraim: The U.S., U.S.S.R. and England, the principle members of the 12 tribes of Israel.

Karma: *See Law of Karma*

King of the north (Daniel 11:1-45): This refers to the leaders of the American nationals, their Pentagon and CIA war lords, and all nations in league with them, principally Israel and England.

King of the south (Daniel 11:1-45): the Arab-Islam world, U.S.S.R. Communists, the Chinese Communists, and those of Korea, Vietnam, Libya and Ethiopia are also of the "king of the south."

King Solomon: Incarnation of Baal-Lucifer, about 1500 B.C. Illegitimate son of David, who rose to be king.

Henry Kissinger: Major player in the Lucifer cabal, an Elder of Zion. Originally from Germany, Kissinger's family fled the Nazi persecution of Jews in 1938. During World War II, he served in Army intelligence. After the war, he began a sterling academic career in political science at Harvard University, receiving his B.A. (1950) and Ph.D (1954), teaching in the government department (1957-1971), and directing the university's Defense Studies Program (1958-1969). In a series of influential books, Kissinger advocated a hard-nosed, realpolitik approach to cold war diplomacy, beginning with *Nuclear Weapons and Foreign Policy* (1957).

Kissinger served in foreign policy advisory positions for the Eisenhower, Kennedy and Johnson administrations, but his greatest influence came under Nixon and Ford. As Nixon's top national security adviser, he guided Vietnam policy through the "Vietnamization" campaign, the invasions of Cambodia and Laos, and the negotiations with North Vietnam which led to the 1973 cease-fire and American withdrawal. Kissinger shared the Nobel Peace Prize for his role in those negotiations, a highly controversial award considering his aggressive stance through most of the war. Kissinger also promoted the policy of detente with China and the Soviet Union which led to Nixon's historic visits there in 1972. Nixon made Kissinger his Secretary of State in 1973, a position he maintained through the Ford Administration. Since 1976, he has continued writing and consulting on foreign policy issues. (source: Cambridge University)

Lake of Fire: Phrase from the Bible in Revelation 20:10, 14-15. Mistakenly believed to be everlasting hell, which souls will be cast into. The only everlasting hell has been in people's minds from getting their soul cognition switches burned in the Solar Catastrophe, all of which is ending and being healed now. In the Everlasting Gospel it is explained that "*death and hell being cast into the the Lake of Fire*" actually has two meanings. First, it refers to all the ruined planets of this solar system being drawn into the sun and dematerialized – after all the souls here have transcended back into eternity at the end of the coming paradise Millennium. Secondly, it is about ETI Beings taking up all the nuclear weapons and exploding them

Law of Karma: Spirit God's law of cause and effect, karma retroactive. This is the fundamental, immutable law operating all Creation. Our thoughts and words go forth to lead us into action to fulfill the things for which they are sent, and do not return to us void. As you sow, so shall you reap.

Life form atoms: The basic building block of Creation. What scientists are discovering is that the atom is really all energy, and behind that they will find it is all consciousness. All atomic and subatomic particles behave as energy, not solid matter, in ways that are quantum in nature (discrete energy fields). When they are able to see further, they will discover something quite wondrous indeed! The mighty atom is really a manifesting aspect of Spirit God's consciousness, it *is* Intelligence expressing Itself.

The atom is a microcosmic holographic manifestation of the Creation aspect of Uni-Helix Macrocosm. It is really a multi-dimensional living idea! At its center there is pure, clear light of infinite energy: radiant living spirit of Christ consciousness. From Godmind a stream of intelligence-thought is constantly broadcast out from the center, guiding the actual behavior of the holo-atom. This is the one same center of consciousness everywhere in the holo-Universe.

The manifestation of the holo-atom is 3-fold, reflecting the Infinite Trinity nature of God Itself. Thus it has protons, electrons and neutrons.

At the 4-D causal level in Creation, all atoms are the same, having a positively charged beta energy pole and a negatively charged alpha energy pole, revolving around a gamma "neutron" center. (The reverse of the material manifestation). A symbol for this is the yin-yang sign. This level of the atom is pure thought, and each one is an infinitely powerful computerized radio-TV station, capable of recording and playing back the vibrations of an infinite number of thoughts. The atom is telepathically radio-active! Words spoken and thoughts imagined affect atoms at this level, where they are recorded for later playback when similar thoughts or words occur again.

At the astral level of their manifestation, the mind energy directed from the causal level excites atoms to take on a layer of energy-in-motion and a "spin" of being either positive (clockwise) or negative (counterclockwise). This is where bi-polarity in creation takes place. When viewed through esp clairvoyance, they can be seen as little "heart-like helixes of energy," spinning one way or the other. Emotion in humans affects this level. Here they can be accurately described as "lifetrans," because they carry the actual life force operating in Creation.

These positive and negative lifetrans slow down their vibration by combining as "energy clusters" at the first level of 3-D material manifestation, the etheric; taking on their atomic form of specific clusters of electrons (numbers of all minuses), protons (all pluses), and neutrons (equal clusters of both pluses and minuses), plus all other subatomic particles; from whence they take on the physical structure and form of individual atoms, such as hydrogen, helium, carbon and so on as they become gases, liquids and solids — all according to the designs and guidance of the Spirit-Intelligence radiating from the center.

Little Book: The channelings of the Everlasting Gospel are also prophesied and referred to as the "Little Book" in Rev. 10:1-11. In Rev. 10:4, the spirit is speaking to the channel, Allen Michael, telling him to seal up the things the seven thunders uttered, and write them not.

The 7th density consciousness prevalent in this solar system expresses itself thru spiritual teachings that are in a hierarchy, such as the catholic church, or any other religion for that

matter, as well as the esoteric teachings of the ascended masters. Allen Michael is a pure 12th density channel, eternal thought force of cosmic consciousness, coming from galactic sources outside this solar system.

Everything in normal Universe is complete oneness in every way, beyond hierarchy. Our new world commune is simply pure giving and receiving in a thriving, healthy world culture of high creative sharing, operating telepathically with the Universal Mind to produce autonomous self-government for every being, within a world communal context. This is the essence and real nature of the Kingdom of God.

Lenin, Trotsky, Stalin, Khrushchev, Brezhnev, Gorbachev: Founders and leaders of the Soviet Union, from its inception in 1917 to its demise in 1991. Of this group, V.I. Lenin stands apart. In 1917 the most momentous spiritual/social event in all history took place with the coming forth of the Soviet Union as a socialist/communist society. Why so momentous? Because finally an entire nation was launched into the thesis of socialism, to counter the antithesis of capitalism. They kicked out the money changers, just as Jesus did one day in Jerusalem. And just as the reaction of the status quo power elite subsequently did him in, so too has the old usury money dragon apparently turned the USSR back to old capitalist Russia. Also, Jesus was teaching communalism to the people, which was a big threat to the Sanhedrin and Pharisees, giving us the foundation of a world spiritual economy, where we "Hold all things common and make free distribution according to need." This is real Christ Conscious Communism.

Lenin took Russia out of the old world usury money hierarchy, and turned power over to the people's Soviets. Trotsky was his ally, who led the Army in their fight with the forces of counter-revolution that came up against the new Soviet nation in the 1919-1921 War of Intervention. Soviet means council of the people. They used money that had almost no interest on it. Still, they couldn't go all the way into full, real Christ Communism because they held onto a political hierarchy within the Communist Party, whose sins under Stalin were never exorcised. But it took old Uncle Joe to be a heavy counterweight to Hitler, with the decisive battle of WWII being the Battle of Stalingrad, where the Red Army beat the German Army and began to drive them back all the way to Berlin. No small feat.

Khrushchev and Brezhnev played the key roles in advancing Soviet Socialism from the 50s to the 70s. Then Gorbachev played his role of bringing forth Glasnost (openness) and Perestroika (restructuring), before being upended by the CIA in a series of events that ended the Soviet Union.

The story of how the real United States has similarly been lost to the power elite money changers who now run America, Inc. is told in detail in the Everlasting Gospel. The next entry in this Glossary is about the very same Lucifer Group, who are being turned into a Pillar of Light by ETI God Force.

Lucifer Group, Lucifer World Bankers: The elite, virtually secret group who collectively control the FRS, IMF, Export-Import banks, and the World Bank, as well as many of the large private international banking and brokerage houses. Through their financial power, this group has effectively taken over control of the world. Either directly or indirectly they run most of the world's governments, its corporate industries, media and key educational institutions. Through their agents on the American National Security Council and in the CIA and Pentagon, they control the American military. This group is referred to as "*the dragon*" in Revelation 13.

The Everlasting Gospel extends forgiveness to these lost souls, and it explains they have their karmic roots in Judaism/Zionism, going back thousands of years, past King Solomon and

Moses, and all the way back to the solar catastrophe. This is why they 'inherited' the role of acting as the money changers, causing much hatred and violence toward them. Now the channeled truth of the Everlasting Gospel brings a new world beyond money, and all the old world money karma is lifted from everyone's consciousness, which brings freedom to all souls as we get rid of money entirely.

Unfortunately, this group is hallucinating that they are the one and only 'chosen people,' bringing in God's kingdom as a "new world order," founded upon usury money, with themselves in control at the top, where their all-powerful military can destroy any challenge to American-Zionist Imperialism. In Dan. 11:45 it says they come to their end and none shall help them.

Luciferic Consciousness: Consciousness that has arisen in entities who are separated from God, a condition which only exists on these special Carlanon healing planets. Material consciousness, in a delusion that physical matter is the only life there is because the soul has lost connection with the natural Christ spirit, the spirit of life in all Creation. Luciferic consciousness is associated with death, and all that is antithesis to the positive life force. It is the energy that handles the recycling department of the Universe. In and of itself it is not evil, nor is it ever out of balance in normal Universe.

In normal Universe there is no separation between the 3 aspects of the Infinite Trinity: Uni God Consciousness is of the synthesis center, called cosmic consciousness. This is the consciousness of God-Macrocosm, in *and* beyond Creation. The spiritual life force *in* Creation, referred to as Christ consciousness, is the normal awareness of microcosms – positively synthesized in the space of eternity. The luciferic recycling energy of bacteria and enzymes is that negative force of consciousness which activates decomposition of things in nature, recycling them back into pure energy. In normal Universe, all these energies are in perfect balance and never get crossed with each other. Beings stay centered with God in the Universal Christ Spirit and let the recycling energies automatically do their work in subconsciousness without interference.

When entities lose awareness in a solar catastrophe, they "fall" into the dualistic realm of luciferic subconsciousness, disconnected from God and Its positive Christ Life-spirit in Creation. Their consciousness becomes bound up in materiality. This is what the symbolic fall out of the Garden of Eden actually is. These lost souls are hallucinating, "thinking *they* are thinking." So they're lost in dualistic thinking mind, which isn't real. They think they are only bodies, with brains that need to be educated; bodies that are the product of evolution, so when you're dead you're dead. They believe they have an individual mind, which they now awaken to discover is a false, mortal mind; a mind of duality; a mind lost in confusion. They imagine they can achieve salvation through amassing money and material things. All this is a living hell, and unfortunate to say the least.

These lost souls have been suffering in luciferic awareness for some time now, and this is the time of their spiritual reawakening. This reawakening into the consciousness of God's Spirit – the spirit of truth in us all – is the essence of what is happening with all souls here in bodies. The question now is "*To be, or not to be?*" The answer is to be a real soul of the serving Christ spirit of illumined truth that is all-knowing – God in us and with us!

Macrocosm: *see God*

Majestic 12, MJ 12: The code name for the ultra-secret government organization behind the CIA, now gaining notoriety as the group behind the government's UFO coverup.

Karl Marx and Fredrich Engels: Spiritual and intellectual fathers of Communism. Together, they authored the Communist Manifesto in 1848. In his other writings, such as *Das Kapital*, Marx used the dialectics of materialism to analyze and expose the underpinnings and inherent weaknesses in capitalism. Marx wrote that it was labor that was the real creative energy in society, and that socialism, based on the equality of labor and a government of, by and for the workers, could create a society superior to the enforced slavery of capitalism. So socialism was a thesis, an antidote to the ills of antithesis capitalism. The synthesis remains to be manifest, which is Christ Communism, worldwide sharing, with absolute freedom, security and abundance for all.

Karl Marx was a reincarnation of Judah, leader of the creative workers who split from the House of Israel in ancient times, and later was the prophet Daniel.

Masonic Order: Masonry (or Freemasonry) is the oldest fraternity in the world. They were influenced by the Knights Templar, a group of Christian warrior monks formed in 1118 to help protect pilgrims making trips to the Holy Land. By 1731, when Benjamin Franklin joined the fraternity, there were already several lodges in the Colonies, and Masonry spread rapidly as America expanded west. In addition to Franklin, many of the Founding Fathers – men such as George Washington, Thomas Jefferson, Paul Revere, Joseph Warren, and John Hancock – were Masons. Masons and Masonry played an important part in the Revolutionary War and an even more important part in the Constitutional Convention and the debates surrounding the ratification of the Bill of Rights. Many of those debates were held in Masonic lodges.

Michael's Stand: Allen Michael, with the channelings of the Everlasting Gospel, making a stand with Spirit God and the "144,000" to deliver this planet and people back into the eternal kingdom of God.

Microcosms: Us. That is, eternal souls in bodies, who are one in spirit with Macrocosm.

Mind Bank: *See Akashic Records*

Morphogenetic Field: *See Akashic Records*

New Covenant/World Bill of Rights: First channeling to come through Allen Michael after his cosmic initiation in 1947. Fulfills prophesy of the new covenant with humanity spoken of in Jer. 31:31-34. God-given spiritual precepts and context for living in a New World. Replaces the 10 Commandments.

New Jerusalem: Galactic Mothership coming to orbit the planet. Size is approximately 10 miles long and a half mile high. Operated in mind-over-matter mental causation by the Universal Mind. Built on galactic world of Altamira and furnished on Altamedia. Unimaginable wonders are onboard this Mothership, like body growing novas. This ship runs on energy drawn directly out of the electromagnetic field, powering the ship through 4 large Dynadran energy systems.

New World, Kingdom of God, Paradise Millennium: This planet and civilization, being reborn now into Spirit God's communal kingdom. The new world coming into being will be a space age utopian paradise, because we'll be reconnected with the rest of normal Universe. Galactic mind-over-matter technology and all needed supplies will be delivered here in perfect abundance, as the civilization here rights itself to be back in balance with God's natural law. The past will be no more.

Civilization will go on into a thousand year Paradise Millennium, in which the principle focus will be the healing and transformation of souls. This will be happening within a new spiritual world, a world in which there is no stress whatsoever, because all will be in perfect balance with nature, each of ourselves – and God. The whole planetary civilization will become communal, holding all things common and making free distribution according to need. This, in and of itself, opens the door for total transformation to occur. Once society is in balance and turned on, the souls here will flourish, and proceed with their individual healing in a context where no one is left out.

New World Comforter: *See Comforter*

New World Government: In the new world there will be no government which has control over the people. Nation states will no longer exist. This means a higher order of social organization takes its place. This will be autonomous self-government, operated by the Intelligence of the Universe alive in us as our very thoughts and inspired creativity. There will be councils of the people who will meet to organize and schedule labor in services and industry, as well as the production and distribution of goods. The planning will be done to benefit everyone. People will be led by wisdom and true personality. This government of, by and for the people will be organized through the Internet.

Our New World Government is organized through each of us acting to serve and be served in 12 principle social facets: Food, Clothing, Shelter, Care, Recreation, Communication, Transportation, Utility Energies, World People's Council, New World Planning Commission, Administration and Logistics.

New World Planning Commission: One of the 12 principle facets of our new world society, through which people will rotate in service to their fellow humans. Responsible for orchestrating the planned, natural, balanced growth of society. This group will have members possessing skills from all other facets of society.

"144,000": 2 million souls from Galactica, incarnate here in bodies with Michael to bring forth the World Master Plan in Spirit God's Everlasting Gospel. See Revelation 14:1-6.

One World Family Commune, Universal Industrial Church of the New World Comforter, Starmast Publications, Utopian Synthesis Party: The social, spiritual, industrial and political organizations of Allen Michael and his group, to demonstrate real facets of utopian christ consciousness.

Omni God: *see God*

Placentia: This planet, named Placentia – planet of plenty and rebirth – on ETI star maps.

Plentoria: Name of this solar system on ETI star maps.

PSI Gamma Synthesis Energies, Gamma energy, synthesis energy: Energy that flows as the higher consciousness of God's Spirit. Energy radiated by the Universal Mind, coming through the central channel of our awareness via the crown chakra at the top of our head. PSI means the Photo Synthesizing Intelligence of pure spirit, experienced as para-psychological intensity through our ESP organs of perception. 3-fold in its nature: the awareness of both sides in any situation, seeing them in relativity to one another, and adding the unifying synthesis that is always "one for all, all for one."

Pyramid Temple Cities: 12 great communal cities built with galactic technology by the Elohim around 400,000 years ago, whose purpose was to provide a perfect social environment in which the spaced-out microcosms of this solar system could be healed. *See Galactic Period.*

Ring of White Light: The realm in the planet's aura that contains gamma synthesis recordings. Located at the furthest reach of the planet's aura.

Rothschild, House of: Mayer Amschel Rothschild founded this family dynasty, which was carried forth by his five sons. Mayer Amschel Rothschild, 1743-1812, lived most of his life in the Jewish ghetto in Frankfurt, Germany. He laid the foundations of the family fortune as the financial agent for the landgrave of Hesse-Kassel. Of his five sons, the oldest continued the family bank in Frankfurt, while the other four established branches in Vienna, London, Naples, and Paris. All five were created barons (1822) by Francis I of Austria, a title that continues in the family. The ablest of the brothers was Nathan Meyer Rothschild, 1777-1836, who opened the London branch in 1805. As an agent of the British government in the Napoleonic Wars, he was instrumental in the ultimate defeat of Napoleon. Under his guidance and that of his son, Baron Lionel Nathan de Rothschild, 1808-79, the family gained immense power by floating large international loans (e.g., the Irish famine loan, 1847; the Crimean War loan, 1856), but its virtual monopoly was broken as state financing improved. Lionel became the first Jewish member of Parliament (1858), and many members of the family were prominent philanthropists, patrons of the arts, sportsmen, writers, or physicians. (Source: encyclopedia.com)

Mayer Amschel Rothschild was an incarnation of Baal-Lucifer, who earlier had been King Solomon. This being has been given the name Lucifer, because he is the one who led the movement into Luciferic consciousness that precipitated the solar catastrophe. So, Spirit God has used money atonement and this entity to heal the Luciferic energy through usury banking in the world, which came as a very necessary prod to progress and latch to retrogression, principally over the last 200 years.

The entities being healed here were already in Luciferic consciousness as a result of the solar catastrophe. So, releasing that energy through money atonement has caused it to come forth to be healed in each soul as a result. Buying and selling under usury was the only way money could be put into society, in effect moving humanity forward to its destiny in spite of itself – where we get rid of the satanic usury money system entirely. Godmind knew that money atonement was the only way to cause the society (and souls) to grow up out of the dark ages to now enter the real Space Age Paradise.

So the House of Rothschild has been the power at the center of the international banking and brokerage houses right up to the present time. It was their agent Paul Warburg who came to the U.S. He worked with the Rockefellers and J.P. Morgan, and together orchestrated the campaign that convinced Congress to pass the Federal Reserve Act of 1913, with Warburg becoming the first chairman of the FRS. The Rothschilds, through one of their banks in Europe, purchased a controlling 51% of the original stock issued in the New York Federal Reserve bank.

Satan (Satanic Power): Negative energy that takes over people, including whole nations going to war with each other, resulting in thought, words and action that are evil.

There is no Satan who is an evil anti-superhero at war with the man-God, another illusion.

Satanic power is a product of buying and selling, wheeling and dealing for secular profits; which is totally unnatural in a Universe of pure giving and receiving.

SETI: Project of the U.S. government. Search for Extra-Terrestrial Intelligence.

Socialism: A system of social sharing, based on holding all things in common, where people are compensated for their labor. This is the system that rose with Lenin and the Soviet Union as the antidote to capitalism; a thesis rising to counter balance antithesis capitalism. Hegel said this: "Thesis and antithesis evolve one upon the other into the synthesis." Most people don't know Hegel from bagels. The synthesis for all people is Christ Communism, where bagels and everything else are free.

Solar Catastrophe: A calamitous short circuit and atomic burn-out in this solar system, effectively ruining all the planets in the solar system, where 24 billion entities lost their eternal bodies and damaged the etheric circuitry of their soul body. This event was precipitated by entities entering into what they believed was a "thinking mind," an 'evolutionary' step beyond the Universal Mind. The resulting atomic firestorm destroyed all life force in the solar system. Galactic Beings created this world on the outside of the planet over a period of 5 1/2 million years, with its living biosphere where entities could reincarnate thru a special strain of self-reproducing bodies.

Solar Tribunal, the Hierarchy. Ascended Masters, White Brotherhood, Ashtar Command: The team of Beings from this solar system, operating in spaceships and incarnating into bodies at key times, e.g. Jesus the Christ. This group of spiritual masters has worked closely with humanity over the last 20,000 years, operating in the 7th density of spiritual consciousness.

Space Age Paradise: see **New World**

Spirit God: see **God**

Spirit of Truth: All-knowing illumined Christ consciousness alive in us; present as intuitive, telepathic wisdom. This radiant Spirit IS God Itself, present and with each and every soul. This is our real soul nature beyond all ego, one with God. *See Christ consciousness.*

Supernovas: One of Spirit God's creative miracles, sprinkled throughout the galaxies of the Universe. Centers of meta-cosmic creative energy, manifesting myriad wonders directly out of Universal Mind.

Ten Kings: Benevolent industrialists who give their power "one hour to the Beast," meaning they support the American military at the start of the last war, but then reverse their stand to side with the people of the U.S. as they rise in opposition.

30/30 Plan: Spirit God's great idea for operating a balanced society of pure giving and receiving, an equal balance between producers and consumers. For 30 days, half the planet's people will serve to create our daily needs, operating the vital industries and services over the whole world; while the other half of the people are on a 30 day recreation shift, having free use of the planet's travel and recreational facilities. Every 30 days they switch roles, going from giving to receiving and vice versa. Naturally, people will be traveling and changing roles every day, but the social-serving context will be the same for everyone.

UFOs, Unidentified Flying Objects: Generally relates to spaceships used by the Grey Aliens. The Grey Aliens were given special spaceships by the Elohim to help in the overall mission, in exchange for a promise from Spirit God to be taken later to one of the other Carlanon planets, where they can incarnate into normal human strains of bodies. Their main role will be to act as an antidote to the air force and military of aggressor nations in the final war – if it comes. These

spaceships are operated with psychic power, and can only be flown with neutral, balanced energy. These ships have been seen by many people over the last 50 years.

The Greys are beings from this world who are caught in devolved bodies, their large eyes used to see in infrared light frequencies, needed to see in caverns deep in the earth where they live.

UFO Aliens: *see Grey Aliens, UFOs*

Uni Linguistics: Telepathic language spoken throughout the Universe. Always in the central channel of the synthesis and able to instantly see the relativity of the two sides in all things.

Here's an example of the space language spoken throughout the Universe: "Hansel uni nuel etol hal Placentia en ta est" means, "All hail to the Universe, Its energy and cosmic life force. We shall deliver Placentia and its people into the eternal kingdom of God."

U.S. Founding Fathers: Generally, this refers to the 56 men who signed the Declaration of Independence and conceived the Bill of Rights. In the context of the Everlasting Gospel, it refers to the ones who led this group: namely, George Washington, Thomas Jefferson, Benjamin Franklin, John Adams, Samuel Adams and Paul Revere.

U.S. Great Seal: Given to the Founding Fathers telepathically by guides onboard ETI Starship. Can be found on the one dollar bill. Comprised of two sides: the Pyramid seal and the Spread Eagle seal. The Pyramid seal portrays the real mission of U.S. people. It says *Novus Ordo Seclorum*, which means to create a "New Order for the Ages" that is totally of, by and for the people. The all-seeing eye in the capstone represents all-knowing Christ consciousness of Omni God. *Annuit Coeptis* means, "He prospers our undertaking," which refers to Jesus and his Starship group, who provided spiritual guidance to the Founding Fathers of the U.S. Putting the capstone on the Pyramid takes place when U.S. people take the step to cancel the debt and lead the way into holding all things common on a world-wide level. This brings Universal consciousness into manifestation on the material plane.

The Spread Eagle seal refers to the business-as-usual American government, referred to as the beast who is like a flying eagle in Revelation 4:7 and rides the red horse of the apocalypse in Revelation 6:4, who keep peace from the whole world.

Universal Family: The virtually infinite number of souls who exist throughout the meta-galactic Universe, souls who are all one with Spirit God.

Universal Mind: *see God*

Universal Police: The altruistic idea of police who no longer take orders from the establishment to make arrests of law breakers. Instead, they play a key part in the World Wide Work Stoppage to serve the people directly, acting as peacemakers and counselors in situations with people who need rebalancing, taking them to special care environments when necessary. This brings an energy into society which, along with all people having their needs met, ends crime.

Universal Soldiers: Soldiers who choose to obey Spirit God's commandment, "Thou shalt not kill." This idealism in action takes the military power away from the establishment via our nonviolent World Wide Work Stoppage-Karma Yoga Exercise. Universal Soldiers will only act to defend the peace, never again acting for any predator force. They assist in carrying out an action of non-violent civil disobedience that causes no reactionary backlash from the powers-

become a new Universal Peace Corps who are trained to feed, house, clothe and care for all the children, women and men who need immediate emergency life support. Starvation, diseases of malnutrition, general poverty, etc. on the planet will be eliminated as a first priority as we bring our new world into being.

Usury money system: A money system that charges interest on loans, which must be paid back at a compound rate. This means, for instance, when you buy a house you pay for it about 3 times over before the mortgage is paid off. Consider the effect of this in the following analogy: The body of humanity is society, and money acts as its blood. Usury is like a virus getting into the body through the blood, a virus which is very insidious. The virus goes through the bloodstream out into the body and sets up a toll booth at the heart and also at every organ, and also at every muscle, nerve and so on, where anywhere from a few drops to whole quarts of blood are collected as a toll before the blood can reach its destination. You can imagine how long the body will live under these conditions. This explains the grave state society finds itself in now, which is healed by forgiving the debt of the world, establishing free money for a period and then going beyond money altogether.

Utopian Paradise World: *see New World*

Van Allen Belt: Backlogged anti-matter (satanic power), ringing the earth like a spare tire. This negative resonance in the earth's aura is the source of energy for all events involving force and violence, such as murders, wars, rape, etc. Also people losing their temper, shouting and hitting others, etc. When people are triggered into violent negative actions or outbursts, they are being animated by satanic power. This energy is caused by people living in ways of mortal minded thinking, not realizing the false economy of buying and selling itself negates the positive polarity of the life-force atoms in space and matter, creating static confusion rather than dynamic flow of spirit in people's consciousness.

To put it another way: Buying and selling, wheeling and dealing for secular profits forces life to go backwards from the natural, free giving and receiving of the Universe. So, life goes into death consciousness, which is where most of the souls here find themselves now. The confusion feeds on itself, building up in the aura of the planet, bursting out as negative actions in people who are conditioned into such behavior from past lifetimes. *See Satanic Power*

World Master Plan: Spirit God's perfect plan to heal the world. The World Master Plan is the bridge, first in mental causation then in direct action that leads to a whole new world. It's principle components are: **World Wide Work Stoppage/Karma Yoga Exercise** to free the world from the chains of the past without spilling a single drop of blood; the **New Covenant/World Bill of Rights**, which guarantees everyone absolute freedom, security and abundance as their birthright; the **30/30 Plan** of sharing the whole world through pure giving and receiving, creating everyones needs on one high standard; autonomous **New World Government** that is absolutely of, by and for the people, in which we all are self-governed by our own conscience-in-God; and **GROM – Get Rid Of Money** – because it is no longer needed. Through these inspired ideas, the people of the world can act in concert to correct all social and spiritual error and return to living in tune with the Universe and Its natural law.

World Wide Work Stoppage/Karma Yoga Exercise: In this act of creative love service on a world wide scale, we the people unite to stop the old world of negative effects, and begin the new world of Spirit God's first cause purpose. We keep only the necessary services and supplies going as we stop all business-as-usual, as well as halting all the senseless wars and violence. From this we reorganize the whole world along the lines of sharing: along the way applying all necessary resources to end hunger, eliminate poverty, eradicate disease, restore

and no one is left out. Everyone's highest creative abilities will come to the fore. Every soul will rediscover their divine nature, and with it find their real mission in life. The new world society will be streamlined to operate with efficiency and unlimited energy, all hooked together via the Internet using computers and satellite technology.

Zionism: The political movement that arose out of the Jews struggle to re-establish their homeland. Founded by Theodore Herzfield in 1904. In the Bible, it speaks about the lion lying down with the lamb. This is referring to the reconciliation of Zionists (the lion) with Communists (the lamb). So, ultimately these two forces will be one in the hand of the spirit of truth, uniting in the building of a new communal world that has no controlling power elite whatsoever, only autonomous self-government.

The political power wielded by Zionism now is principally in their control of the world's usury money system thru the FRS and IMF, which came thru an alliance of the Rothschilds with Zionism early on. The Rothschilds bankrolled the Zionists early Jewish settlements in Palestine, what is now Israel. In 1913 this alliance took over the money system of America, establishing a controlling interest in the still privately owned Federal Reserve System. The Everlasting Gospel channels that the entity Baal-Lucifer incarnated as King Solomon and later Amschel Rothschild, and that he and his family would play the key role in advancing the system of usury capitalism, which would introduce and further express money atonement, which spirit God gave to rebuild the consciousness of the entities being healed here on this special healing planet.

In the beginning, Zionism had a strong socialist bent. This attracted the capitalist Rothschilds, who could see it would take dedicated workers to make the idea of returning to the Holy Land a reality. Now, however, they are controlled by their extreme right wing element, holding the heaviest negative karma on the planet. What a tragedy. Their false belief that Jews are the chosen people has led them to also believe they are destined to control the world thru a system of force and violence involving usury money, judiciary-penal systems and military force, where the end always justifies the means. This is why it says in the Bible that the love of money is the root of all evil, where "business is business," people be damned. Of course, now there are millions of gentiles caught up in this very same thing, just as they became caught up in the false thinking consciousness with Baal-Lucifer that led to the atomic firestorm that destroyed all life in this solar system.

Tracing the energies all the way back to the solar catastrophe shows us these beings were all caught up in the disease of mortal minded thinking, where they lost contact with all-knowing Truth. This spiritual error has led them way off on a detour, where now their nation of Israel is involved in a life and death struggle, playing the incredible, unfortunate role of oppressors. The way out for them is to sponsor world wide forgiveness for all past sins, including forgiving all financial debts, and eliminating interest charges from all money transactions, using money as free cash flow to the end of getting rid of money altogether.

The Everlasting Gospel channels about this subject in extensive detail. Fortunately for Zionists and everyone, the Everlasting Gospel's world master plan leads us into a new world that doesn't use money, where we hold all things common and make free distribution of all things according to need, creating a world of pure equality and absolute freedom, security and abundance for everyone.

- assembled and compiled by Joseph Antaree and Michael Bobier
